

CONTENTS

FOREWORD	IV
PREFACE	VI
Technical note.....	VIII
Contents.....	X
1. AUSTRIA.....	1
General information.....	1
1. 1. Books containing information on forest mensuration.....	2
1. 2. Tree.....	4
1. 2. 1. Tree measurement and instruments.....	4
1. 2. 2. Tree and log volume determination.....	6
1. 2. 3. Tree form.....	7
1. 3. Bitterlich's angle count measurements and the relascope.....	9
1. 4. Stand structure and site quality.....	12
1. 5. Stand volume, growth and yield tables.....	15
1. 5. 1. Stand volume.....	15
1. 5. 2. Stand growth and growth modeling.....	16
1. 5. 3. Yield tables.....	18
1. 6. Other works.....	20
1. 7. Forest inventory and remote sensing.....	21
1. 8. Chronology of selected works.....	26
1. 9. Selected contributors.....	29
1. 10. Comments.....	29
References	30
2. FORMER CZECHOSLOVAKIA.....	38
General information.....	38
2. 1. Textbooks on forest mensuration and tables collections.....	39
2. 2. Tree measurement.....	39
2. 3. Assortment tables for trees and stands.....	41
2. 4. Site and forest productivity.....	41
2. 5. Stand structure.....	42
2. 6. Stand growth.....	44
2. 7. Stand productivity and yield tables.....	44
2. 8. Biomass studies.....	46

2. 9. Tree-ring studies.....	46
2. 10. Forest inventory and remote sensing.....	47
2. 11. Chronology of selected works.....	48
2. 12. Selected contributors.....	50
2. 13. Comments.....	50
References.....	50
3. FRANCE.....	55
General information.....	55
3. 1. Books containing information on forest mensuration and other booksthat contributed to the development of this field of forestry.....	57
3. 2. Measurement of trees and primary products instruments.....	66
3. 3. Tree volume tables.....	68
3. 4. Tree growth.....	77
3. 5. Forest site evaluation. Site index.....	79
3. 6. Stand structure.....	82
3. 7. Stand volume, growth and yield.....	85
3. 7. 1. Stand volume and productivity.....	85
3. 7. 2. Stand growth.....	87
3. 7. 3. Growth and yield tables.....	89
3. 7. 4. Growth and yield modelling.....	90
3. 8. Weight and biomass studies.....	91
3. 9. Tree-ring studies.....	93
3. 9. 1. Early works.....	93
3. 9. 2. Dendroclimatology.....	94
3. 9. 3. Dendroecology	97
3. 9. 4. Methods used in tree-ring studies.....	97
3. 10. Forest inventory and remote sensing.....	100
3. 11. Chronology of selected papers and events.....	106
3. 12. Selected contributors.....	112
3.13. Comments.....	113
References.....	116
4. GERMANY.....	138
General information.....	138
4. 1. Books, textbooks and auxiliary tables containing information on forest mensuration.....	142

4. 2. Local and regional forest studies containing information on timber mensuration, especially in mixed stands.....	150
4. 3. Determination of log and other primary products, volume and measurements of diameters, tree height and crown. Instruments.....	154
4. 4. Tree form.....	163
4. 5. Tree volume tables and equations.....	181
4. 6. Tree growth.....	191
4. 7. Timber assortments.....	198
4. 8. Evaluation of forest site quality.....	203
4. 9. Stand structure.....	208
4. 10 Determination of stand volume.....	222
4. 11. Yield tables and equations.....	231
4. 12. Determination of stand growth using conventional methods.....	247
4. 13. Growth and yield modeling.....	254
4. 14. Weight and biomass studies.....	257
4. 15. Tree-ring studies.....	258
4. 16. Application of methodological statistics in timber mensuration	264
4. 17. Forest inventory and remote sensing.....	267
4. 17. 1. Forest inventory.....	267
4. 17. 2. Remote sensing in forestry and GIS.....	274
4. 18. Chronology of the selected works on forest mensuration.....	283
4. 19. Author's selection of the most important events.....	294
4. 20. Selected contributors.....	297
4. 21. Comments.....	300
References.....	303
5. POLAND.....	352
General information.....	352
5. 1. Textbooks and general problems of forest mensuration.....	352
5. 2. Tree.....	354
5. 2. 1. Measurement of trees and logs.....	354
5. 2. 2. Tree form.....	354
5. 2. 3. Volume tables and equations.....	355
5. 2. 4. Application of fractal dimensions as measures of leaf	358
5. 3. Stand structure	358
5. 4. Stand volume.....	359
5. 5. Stand growth and yield.....	360
5. 5. 1. Stand growth.....	360

5. 5. 2. Yield tables and regionalization of yield stands.....	361
5. 5. 3. Assortment tables.....	362
5. 6. Biomass studies.....	362
5. 7. Tree-ring studies.....	363
5. 8. Forest inventory and remote sensing.....	364
5. 9. Chronology of selected works.....	365
5. 10. Selected contributors.....	367
5. 11. Comments.....	367
References.....	368
6. SWITZERLAND.....	376
General information.....	376
6. 1. Books containing information on timber mensuration, forest management, tree-ring studies, site quality and classification, and forest inventory including remote sensing.....	377
6. 2. Tree.....	380
6. 2. 1. Measurement and instruments.....	380
6. 2. 2. Tree growth.....	380
6. 2. 3. Other aspects concerning the tree.....	382
6. 3. Plant sociology and site evaluation.....	383
6. 4. Stand structure.....	385
6. 4. 1. Influence of thinning on stand structure.....	387
6. 4. 2. Selection forest.....	387
6. 4. 3. Other aspects connected with forest structure.....	387
6. 5. Stand growth and yield.....	388
6. 5. 1. Volume of standing timber and yield tables.....	388
6. 5. 2. Stand growth.....	389
6. 6. Biomass studies.....	390
6. 7. Tree-ring studies.....	391
6. 8. Forest inventory, monitoring and remote sensing.....	394
6. 8. 1. Forest inventory.....	394
6. 8. 2. Remote sensing.....	396
6. 8. 3. Endangered forest inventory and monitoring.....	396
6. 9. Chronology of selected works.....	397
6. 10. Selected contributors.....	399
6. 11. Comments.....	400
References.....	401
