

# Contents

## Opening discussions

*Impact of Natura 2000 sites designation on forest management*  
 Peter Veen .....7

*The history of Forest Research and Management Institute and its development prospects (in Romanian)*  
 Marian Ianculescu .....11

## The forest in a changing natural and socio-economic environment

*Researches regarding the parametric objective approach of the climatic year structure in hilly and mountainous regions, in the frame of climate changes*  
 Viorela Huber .....21

*Effects of accidental fluorine pollution on Prahova Valley's forest stands*  
 Marian Ianculescu, Ionel Popa, Ștefan Neagu, Cristina M. Măcărescu .....29

*Hungarian oak and Turkey oak fructification in the Western part of the Getic Plateau*  
 Iulian Bercea .....41

*Research on structural variety of stands for three European beech forests with different ages, located in middle and superior Valley of Argeș River*  
 Gheorghe Guiman, Virgil Scărlătescu, Constantin Truică .....53

*Ecological reconstruction by regeneration of pine stands located on degraded lands in the South-Eastern Romania (in Romanian)*  
 Cristinel Constandache, Sanda Nistor .....65

*Research on ecological reconstruction of the declining forests in embanked areas located in the Danube flood plain and Delta (in Romanian)*  
 Manole Greavu .....79

*Aerodynamic study of forest shelter belts (wind breaks)*  
 Titus-Traian Orădean .....89

*Local networks of forest shelterbelts – solution to achieve a national plan*  
 Maria Magdalena Vasilescu, Cornel Cristian Tereșneu .....91

## Forest resources – assessment, management, use

*Evolution of the European concept of forest management and the incidence on the Romanian silviculture (in Romanian)*  
 Petre Bradosche .....99

*Wood biomass resources of Romania – an alternative source of energy (in Romanian)*

Gavril Budău, Mihai Ispas, Mihaela Câmpean .....	117
<i>Current structure and growth in diameter of hornbeam stands in northeast Bulgaria</i>	
Hristo Tsakov, Alexander Delkov .....	123
<i>Considerations on some current problems of management in Romania's silviculture (in Romanian)</i>	
Ion Machedon .....	131
<i>Certification schemes – a first step towards sustainable management of forestry in Romania</i>	
Corina-Ionela Dumitrescu, Beatrice Leuştean.....	139
<i>Beech timber preservation during storage</i>	
Octavia Zeleniuc .....	145
<i>Assessment of anthropogenic and climatic changes impacts on forest systems by satellite and biogeophysical data</i>	
Maria Zoran, Mihaela Caian .....	151
<i>Aspects regarding the use of digital orthophotomaps in forest cadastre</i>	
Iosif Vorovencii .....	159
<i>Integrated forest planning and management system: pathway to the future in Romania?</i>	
Eugen Iordache, Marius Petrila .....	169
<i>Inventory of primary and secondary forest ways using GPS/GIS in Romanian mountainous forests</i>	
Eugen Iordache .....	177
<i>Operational model for assessment of environmental impact in forest road construction (in Romanian)</i>	
Valeria Alexandru, Rostislav Bereziuc, Valentina Ciobanu .....	183
<i>Possibilities of estimating discharge in small watersheds by means of TR-55 model</i>	
Cornel Cristian Tereşneu, Ştefan Tamaş, I. Clinciu, Maria Magdalena Vasilescu .....	189
<i>Contributions to the kinematics study of the blade borers for seedling planting holes</i>	
Ilie Popescu, Rudolf Derczeni, Eugen Iordache, Horia Şotoc .....	195
<i>Gully erosion in Suceava Plateau – a case study</i>	
Ovidiu Iacobescu, Ionuţ Barnoaia .....	203

#### **Forest biodiversity – assessment, monitoring, conservation, improvement**

<i>The importance of some endemic plant taxa in maintaining the identity of Dacian Beech forest (Symphyto-Fagion)</i>	
Anca Păunescu .....	211
<i>Formation, development and early abscission of the Italian oak (Quercus frainetto) acorns during vegetation season (in Romanian)</i>	
Marius Sorin Nică, Marcel Octavian Bădele, Constantin Neţoiu, Ionel Cioc, Cornel Şoancă .....	219
<i>Physiological aspects of Quercus species under chemical and integrated pest control in North-Eastern Romania's forests</i>	
Ligia Acatrinei .....	227
<i>Management principles of fish populations in mountain waters (in Romanian)</i>	
Ioan Cristea .....	235
