

Table of Contents

1. INTRODUCTION.....	3
2. MATERIAL AND RESEARCH METHOD	7
2.1. Research material	7
2.2. Seed lots sampling and laboratory analyses	10
2.3. Conservation environments	11
2.4. Data processing and statistical analysis	12
3. GENETIC VARIABILITY OF SOME MORPHOLOGICAL AND QUALITATIVE CHARACTERS OF SILVER FIR CONES AND SEEDS..	15
4. CONSERVATION OF SILVER FIR SEEDS.....	26
4.1. Conservation environments and qualitative parameters of stored seed lots	26
4.2. Assessment of silver fir seeds respiration in conservation environments	35
4.3. Pre-treatments to stimulate germination capacity of silver fir conserved seeds	39
4.4. Characteristics of seedlings grown from silver fir conserved seeds.....	43
5. RECOMMENDATIONS FOR HARVESTING AND PROCESSING THE SILVER FIR CONES AND SEEDS	44
6. CONCLUSIONS.....	47
6.1. Genetic variability of some morphological and qualitative characteristics of silver fir cones and seeds	47
6.2. Conservation of silver fir seeds	47
ANNEX. PROTOCOL FOR CONSERVATION OF SILVER FIR SEEDS FROM SEED ORCHARDS.....	49
BIBLIOGRAPHY	51
